To John, JAMCO fx = 365-7367
8400 Sweeney Ave, RC

Could you supply a ball park estimate for sawing off 10 concrete piers at ground level. They are six feet high, 18 inches square at the base tapering upwards to about a foot square. There are rebar inside, four I think.

When sawn off they will have to be moved but at this point just assume they will be left lying flat. Location is 3185 Alpine Road, MP.

Ron Bracewell
